

## Visa Fee by Nationality

All visa fees are set by the Government of the Republic of Korea. The Korea Visa Application Center (KVAC) is authorized to collect the visa fees on behalf of the Embassy of the Republic of Korea in Mongolia. **The visa fees are charged in US Dollars (USD)** and vary depending on the nationality of the visa applicant.

- Since the visa fee covers the costs related to the visa application review such as processing and evaluation, your application fee will not be refundable even if your application is denied.
- Despite the standard visa fee regulations, fees may be differently applied according to international practices, the principle of reciprocity, national agreements, or in the cases deemed necessary by the Enforcement Decree of the Ministry of Justice.

Please find the below table for the Standard Visa fee.

(Currency: USD)

Type of Visa	Fee
90 days or less Single-entry visa	40
91 days or longer Single-entry visa	60
Double-entry visa usable up to 2 times	70
Multiple-entry visa	90

The Government of Korea signed reciprocal facilitations and national agreements with selected countries for adjusted or exempted visa fees as below.
